

## **Lesson Eight – Activities**

Now like I said on the video, you can send me on pictures of your posters if they are completed.

For your last assignment: I would like you guys to pick any topic we have covered over the course and do a mini project on it. Now you can type this, write it, draw labelled diagrams. This can be any topic – if you prefer, you can do a mini project on a couple of small topics.

There is no time limit on this – and it is optional, so if you have loads of schoolwork, that is your priority. If you have the time this is something you can work away on.

My final note: I would just like to say thank you again for being an amazing class. It was an absolute pleasure to teach you all. I wish the best to you and your families and hopefully we will meet again in the future. Remember a little bit of hard work and a wiliness to do it, and you can achieve anything.

Meg
